

May 29-June 4, 2008
Dubrovnik, Croatia

EMBO Conference on Cellular Signaling and Molecular Medicine

Dear Colleagues,

You are cordially invited to join us at the **EMBO Conference on Cellular Signaling and Molecular Medicine** to be held in Dubrovnik, Croatia, May 29th - June 4th, 2008.

The conference is intended to showcase recent results from fields of molecular and cellular biochemistry, with special emphasis on translational sciences. Talks will be held by internationally renowned scientists at the forefront of their fields, who will be discussing cutting edge technologies in molecular medicine and novel target signaling networks in various pathologies. In addition, 8 presentations for hot topics in 2008 will be selected among conference participants. There will also be poster sessions providing an opportunity for exhibitors and meeting attendants to discuss their work in a relaxed and intimate setting. A special session on Science and Society co-ordinated by Andrew Moore from EMBO will provide a forum for participants to learn about the science communication with the public.

We are also proud to announce Dr. Tim Hunt, Cancer Research UK, as our keynote speaker. Tim Hunt shared the Nobel Prize in Physiology and Medicine 2001 with Paul Nurse and Leland Hartwell for their discoveries of cell cycle regulation by cyclin and cyclin-dependent kinases.

For all information and abstract deadlines regarding this exciting meeting please visit www.dubrovnik-conference.org and for additional information or questions please contact: contact@dubrovnik-conference.org

Organizers: Drs. Manuela Baccarini, Ivan Dikic and Joseph Schlessinger.

Keynote lecture Tim Hunt, UK

From bench to bedside on cancer treatment
Joseph Schlessinger, USA
Paul Manley, Switzerland
Pier Paolo Di Fiore, Italy

Protein kinases & therapeutic interventions
Manuela Baccarini, Austria
Tony Hunter, USA
Giulio-Supertu Furga, Austria

Targeting signaling networks
Tony Pawson, Canada
Ivan Dikic, Germany
Michael B. Yaffe, USA

Dynamics of signaling pathways
Marino Zerial, Germany
Alain Israel, France
Johannes Bos, Holland
Philippe Bastiaens, Germany

New technologies
Inder Verma, USA
Ursula Klingmüller, Germany
Vishva Dixit, USA

Molecular biology and medicine I
Maria Masucci, Sweden
Kohei Miyazono, Japan
Chris Marshall, UK
Alfred Wittinghofer, Germany

Molecular biology and medicine II
Clare Isacke, UK
Ruth Palmer, Sweden
Reinhard Fässler, Germany
Richard Marais, UK

New trends 2008
Young investigator selected presentations

Communication and Society
Andrew Moore EMBO
